Objective

Aspiring web developer with hands-on experience in crafting dynamic and user-centric web applications. Proficient in the MERN stack and currently expanding expertise in AI/ML with Python. Seeking a role to leverage technical skills and creativity in building innovative solutions and contributing to impactful projects.

Experience

Backend Developer
Dabuli Nepal, Kathmandu, Nepal
January 2023 – March 2024

- Developed and maintained backend systems using JavaScript, focusing on optimizing performance and scalability.
- Collaborated with frontend developers to ensure seamless integration of user-facing elements.
- Participated in code reviews and debugging sessions to enhance code quality and system reliability.

Freelance Web Developer
Kathmandu, Nepal
April 2021 – May 2022

- Designed and developed local websites, specializing in UI/UX design using Figma.
- Built responsive and user-friendly web pages using HTML, CSS, and JavaScript.
- Worked closely with clients to understand their needs and deliver custom web solutions.

Education

The University of Southern Mississippi, Hattiesburg, MS
Bachelor of Science in Computer Science
August 2024 – May 2028 (Expected)
Relevant Coursework: CSC 101,, Calculus I with Analytical Geometry

Little Angels' School, Lalitpur, Nepal
Science Stream
April 2019 – August 2023
Graduated with distinction, specializing in Science with a focus on Computer Science and Mathematics.

Projects

1. **Food/Restaurant App**
   Developed a full-stack application using the MERN stack (MongoDB, Express.js, React, Node.js) for restaurant management and online ordering.
2. **E-commerce Website**
   Created a scalable e-commerce platform using the MERN stack, implementing features like product browsing, shopping cart, and secure payment processing.
3. **Weather App**
   Built a dynamic weather forecasting app using React and integrated with external APIs to fetch real-time data.
4. **Fitness Tracker**
   Designed and implemented a fitness tracking application using the MERN stack, featuring user authentication, workout logging, and progress tracking.
5. **Finance Tracker**
   Developed a Python application to manage and track personal finances, including expense categorization, budget tracking, and financial analysis.

Skills

- **Programming Languages:** Python, JavaScript
- **Web Development:** HTML, CSS, MERN stack (MongoDB, Express.js, React, Node.js)
- **Design:** UI/UX design with Figma
- **Customer Service:** Strong ability to interact with customers in a friendly and professional manner
- **Teamwork:** Proven ability to work effectively in a team environment
- **Time Management:** Ability to manage multiple tasks and meet deadlines
- **Communication:** Strong verbal and written communication skills
